10) Click on 'Show address' that appears as per below.

11) Copy the address that is shown when you have logged in. This is your unique address.

12) Log into www.exerglobal.com, click on 'Crypto Accounts'. Paste the address you have just copied from Coinbase into the box as shown below. Click 'change address' before you exit (or 'set address' if you have not done this before). Repeat the same procedure for all relevant currencies.

NOW YOU ARE ALL SET!!

Think about!

- If you don't have currency in your e-wallet when you plan to perform your upgrade you will have to purchase the relevant currency first.
- Perform a purchase and do the upgrade directly after the purchase is finalized. The currencies fluctuate (goes up and down just like a stock) and therefore the best is that the steps are performed directly after each other.
- Above instruction is valid independent of which currency used to upgrade.
