PROOF OF PARKING

VIRIDI

"Proof of Parking" (POP).

We created a new way to generate passive income that rewards coin owners by what we call "Proof of Parking" (POP).

Viridi's investments in Cannabis companies in Switzerland pay dividends annually and we divide the amount into 4 quarters for "Proof of Parking" (POP) systems.

The owners of **VIRIDI** coins can use our "Proof of Parking" (POP) system from 10 days to 5 days before the reward payment. VIRIDI coins will be locked in their VIRIDI wallet, and VIRIDI coins will be released 7 days after to wallet owner again.

Payments are made every three months with 17.5% of the annual dividend, reinvest 5% of the annual dividend in new projects and 2.5% for the administration of the annual dividend.

Total 4 times annual payout: 70% payout, 20% reinvestment, 10% administration. All coin owners who use the "Proof of Parking" (POP) system receive their share of the dividend, which is based on the number of coins that each coin owner has parked in. POP payments are calculated in euros and payments are made in VIRIDI.

The dividend payment of VIRIDI will be purchased at market price between 1-5 days of the "Proof of Parking" (POP) period and the exchange rate for EURO / VIRIDI will be locked to the purchase price at that time and the dividend payment will be calculated for the locked purchase price.
